Japan Journeys launches revamped website

London, 17 Dec 09: Specialist tour operator Japan Journeys has re-designed its website to incorporate brand new features, which will help both agents and clients alike.

The re-launched website includes a new 'About Japan' section that details facts, travel tips and customs to be aware of on your first visit to the country, as well as frequently asked questions involving when to go and what to see. The re-launched website can be found at <http://www.japanjourneys.co.uk>

The website will be continuously updated with new tour information and packages, with particular attention paid to the new 'Independent Travellers' section, which outlines unescorted itineraries for holidaymakers looking for a private trip with a fixed schedule. Information about booking Japan Rail Passes, gap year travel and school and business trips is also available.

Japan Journeys was established in 2004. It is a dedicated Japan specialist and the number one provider of manga and bonsai tours to Japan. In May 2010, it will be launching its brand new Gourmet tour of Japan, the first offered by a UK operator. It also offers a Classic Japan Tour, as well as more specialist gap year programmes for those aged under 29, a Quilters' Tour of the country and a luxury Hidden Islands of Japan cruise. Japan Journeys also works with private clients to arrange tailor-made itineraries.

For more information, please go to: <http://www.japanjourneys.co.uk> or telephone 020 7766 5267.
